

## BUSHVELD & SAVANNA REGIONS

Indigenous trees well suited to bushveld / savanna areas

A substantial size tree for shade to smaller animals during the blistering African sunlight in the afternoon is essential to their and their offspring survival. Elephant bulls in nature purpose is to make way for grassland and savanna areas. As wildlife conservation areas are shrinking worldwide, it is our duty to ensure their survival. Help us to plant an indigenous tree. One tree at a time we can help the environment replenish. The average 100l plant ranges between R500 and R2000 per tree.

### Donate any amount towards planting an indigenous tree:

(or one of the trees listed below)

Acacia burkei (Black Monkey Thorn) (10-15m)	Erythrina lysistemon (Coral Tree) (6-10m)
Acacia galpinii (Monkey Thorn) (18-25m)	Euclea natalensis (Natal Guarri) (2-12m)
Acacia nigrescens (Knob Thorn) (7-20m)	Faidherbia albida (Ana Tree) (20-30m)
Acacia nilotica (Scented Thorn) (5-10m)	Ficus abutilifolia (Large-leaved Rock Fig) (1-8m to 15)
Acacia robusta (Splendid Acacia) (10-15m)	Ficus glumosa (African Rock Fig) (3-10m)
Acacia sieberiana var. woodii (Paperbark Thorn) (7-17 m)	Ficus ingens (Red-leaved Rock Fig) (1-15m)
Acacia xanthophloea (Fever Tree) (10-15m)	Ficus sycomorus (Sycamore Fig) (10-12 m)
Adansonia digitata (Baobab) (5-20m)	Heteropyxis natalensis (Lavender Tree) (4-7m)
Albizia versicolor (Poison-pod Albizia) (8-10m to 18m)	Galpinia transvaalica (Wild Pride-of-India) (3-6m)
Berchemia discolor (Red Ivory) (5-10m)	Kigelia africana (Sausage Tree) (6-18m)
Bolusanthus speciosus (Tree Wisteria) (4-7m)	Kirkia acuminata (White Syringa) (6-18m)
Boscia albitrunca (Shepherd's Tree) (4-7m)	Kirkia wilmsii (Mountain Syringa) (4-8m)
Bretonia salicina (African Teak) (5-30m)	Lonchocarpus capassa (Apple-leaf) 4-10m)
Burkea africana (Red Syringa) (8-10m)	Mimusops zeyheri (Transvaal Red Milkwood) (5-15m)
Clerodendron glabrum (White Cat's Whiskers) (3-6m to 10m)	Ochna pulchra (Peeling Plane) (3-8m)
Colophospermum mopane (Mopane) (4-10m)	Peltoporum africanum (Weeping Wattle) (5-10m)
Combretum erythrophyllum (River Bushwillow) (6-12 m)	Pterocarpus angolensis (Kiaat) (10m to 15m)
Combretum imberbe (Leadwood) (8-10m to 20m)	Pterocarpus rotundifolius (Round-leaved Kiaat) (8-10m to 20m)
Combretum molle (Velvet Bushwillow) (7-10 m)	Rauvolfia caffra (Quinine Tree) (6-20m)
Combretum zeyheri (Large-fruited Bushwillow) (8-10m)	Salix subserrata (Safsaf Willow) (4-7m)
Commiphora africana (Poison-grub Commiphora) (2-5m)	Schotia brachypetala (Weeping Boer-bean) (5-16m)
Cordyla africana (Wild Mango) (10-25m)	Sclerocarya birrea (Marula) (7-17m)
Croton gratissimus (Lavender Feverberry) (6-10m)	Steganotaenia araliacea (Carrot Tree) (2-7m)
Cussonia spicata (Common Cabbage Tree) (3-10m)	Sterculia murex (Lowveld Chestnut) (7-10m)
Cussonia transvaalensis (Grey Cabbage Tree) (5-8m)	Syzygium cordatum (Water Berry) (8-15m)
Diospyros mespiliformis (Jackal-berry) (10-15m)	Tabernaemontana elegans (Toad Tree) (3-7m)
Dombeya rotundifolia (Wild Pear) (4-5m)	Terminalia sericea (Transvaal Silverleaf) (4-7m)
Dovyalis caffra (Kei Apple) (3-5m to 8m)	Trichilia emetica (Natal Mahogany) (9m to 30m)
Englerophytum magalimontanum (Transvaal Milkplum) (3-10m)	Xanthocercis zambesiaca (Nyala Tree)
Entandrophragma caudatum (Wooden Banana) (10-30 m)	Ziziphus mucronata (Buffalo Thorn) (7-10m)
